Hierarchial Inheritance

Class Diagram:

Coding Program:

Karyawan:

```
public class Karyawan {
    public int gaji=4000000;
    public void gaji() {
        System.out.println("Gaji Dasar Karyawan Adalah "+gaji);
    }
}
```

Manager:

```
public class Manager extends Karyawan {
    public double kenaikan = 0.45;
    public void gajiManager()
    {
        System.out.println("Gaji Manager adalah " + (gaji + (gaji * kenaikan)));
    }
}
```

HRD:

```
public class HRD extends Karyawan{
   public double kenaikan = 0.25;
   public void gajiHRD()
   {
       System.out.println("Gaji HRD adalah " + (gaji + (gaji * kenaikan)));
   }
}
```

Main:

```
public class MainHierarchical {
   public static void main(String args[]) {
        Manager m = new Manager();
        HRD h = new HRD();

        m.gaji();
        m.gajiManager();
        h.gaji();
```

```
h.gajiHRD();
}
```

Hasil:

Gaji Dasar Karyawan Adalah 4000000 Gaji Manager adalah 5800000.0 Gaji Dasar Karyawan Adalah 4000000 Gaji HRD adalah 5000000.0

Hybrid Inheritance Class Diagram:

Coding Program:

Guru:

```
public class Guru {
    public String namaGuru;
    public void guru(String namaGuru){
        System.out.println("Nama Guru: "+namaGuru);
    }
}
```

Murid:

```
public class Murid extends Guru {
   public String nama;
   public int nim;
   public void namaMurid(String nama){
        System.out.println("Nama Siswa: "+nama);
   }
   public void nimMurid(int nim){
```

```
System.out.println("NIM Siswa: "+nim);
}
```

IPA:

```
public class IPA extends Murid {
    public int nilai;
    public void nilaiIPA(int nilai){
        System.out.println("Nilai IPA: "+nilai);
    }
}
```

Matematika:

```
public class Matematika extends Murid {
    public int nilai;
    public void nilaiMat(int nilai){
        System.out.println("Nilai Matematika: "+nilai);
    }
}
```

Main:

```
public class HybridMain {
   public static void main(String args[]) {
        IPA i = new IPA();
        Matematika h = new Matematika();

        i.guru("Kevin");
        i.namaMurid("Awi");
        i.nimMurid(2041720091);
        i.nilaiIPA(90);

        h.guru("Kevin");
        h.namaMurid("Awi");
        h.nimMurid(2041720091);
        h.nimMurid(2041720091);
        h.nilaiMat(85);
    }
}
```

Hasil:

Nama Guru: Kevin

NIM Siswa: 2041720091

Nilai IPA: 90 Nama Guru: Kevin Nama Siswa: Awi

Nama Siswa: Awi

NIM Siswa: 2041720091 Nilai Matematika: 85
